Maths **Functional Skills**

Our Functional Skills courses focus on the skills needed in everyday work and social situations. They help develop practical maths skills and allow you to apply these to a range of realistic everyday situations. Whether you need to learn how to calculate percentages for work or balance your personal finances, Functional Skills Maths courses will focus on practical maths skills used in everyday life.

Duration

Up to 17 weeks.

Price

FREE if you are 19+ and you do not currently hold a GCSE at grade A*-C / 9-4 or equivalent.

Learning Method

In person delivery. Your progress will be regularly reviewed with your tutor. You will work individually, in pairs, small groups or as a whole class in order to consolidate the skills and knowledge taught. You will need to do approximately 3 hours of directed study per week in your own time.

What will I learn?

Functional Skills courses cover practical maths skills including calculating with whole numbers, fractions and percentages, ratios and scale, measuring shape and space, as well as using statistics and presenting data. Task based activities will allow you to practise these in real life scenarios. Your progress will be regularly reviewed with your tutor.

Course units

Number work

Shape & space

Data handling

Problem solving

Why should you study at Runshaw?

- High level of support provided by professional tutors.
- Fully taught (face to face) lessons by qualified experienced maths tutors.
- Expertly developed resources tailored to each level of the course which are presented in a variety of ways including paper based, videos, practical activities and online materials.

Progression

On successful completion of the course you will receive a Functional Skills qualification in maths at Entry Level 3, Level 1 or 2. You may then progress to the next level of Functional Skills Maths, or courses in other areas.

Where are **you** going?

Accountant

Teaching Assistant

Nurse

Police Officer

Senior Administrator
