# Applied Professional Program in the field of Health, Care and Social Care

Health & Social Care at Runshaw College is ideal for anyone wanting to progress into a wide range of careers in health or social care. In the past, we have had students progress into careers in areas including Adult nursing, Children's nursing, Mental Health nursing, Midwifery, Paramedics, Occupational Therapy, Social Work and Special Needs Teaching.

Students can decide to explore options in higher education, using their qualification to enrol on to degrees not only in health, care and social care eg nursing or social work but also degrees not necessarily linked directly to Health and Social Care including Psychology, Criminology and also Care, Community and Citizenship.

Most of the teaching staff in the school are former health and care professionals and so are able to bring a wealth of previous experience and authenticity to the classroom. Our staff are former Registered Nurses, Midwives, Mental Health Nurses who have worked in areas such as social work and care of people with special needs.

You will be learning about the human lifespan, roles and responsibilities in the health and social care profession, infection prevention, anatomy and physiology, health and safety, care values and much more.

Students will complete work placements, working in settings such as, care homes, nursing homes, hospitals and day-care centres. Work placement enables students to build their confidence, communication skills and team working skills. During their time on work placement, they will be supported by placement staff and dedicated placement

mentors, who visit the students on each placement, monitoring their progress and providing additional support.

If you are looking for an excellent qualification with a number of open pathways in both higher education and careers, choose Health, Care and Social Care studies at Runshaw College.

## Entry Requirements\*:

A minimum of 5 x Grade 4s, Maths or English Language/Literature at Grade 4 and the other at Grade 3. Must complete a DBS. Grade 4 in English Language and Science if intending to progress to nursing. \* Qualification requirements may be subject to change.
