# Level 1-2-3 Computing & IT

The range of Computing & IT vocational qualifications available at Runshaw give learners at all levels a good grounding in all aspects of the subject, and will provide the means to study a specialist area when either moving on to university, progressing into employment or continuing with training on an apprenticeship. Over the course you will experience a variety of units chosen with current trends and demands in mind. Teachers at Runshaw are highly experienced and are also dedicated to making the time students spend with us both successful and enjoyable. Enrolling on a vocational course means you will have a 100% Computing & IT timetable and be part of a winning team!

Good communication skills are essential for each course, but most importantly you must have a passion for the subject and a willingness to be creative and dedicated. There may be choices of specialist unit that include programming for those learners who demonstrate their ability.

The Level 1 Vocational course has been designed to provide a broad educational basis for further training, further education or for moving into appropriate employment within the IT sector.

The Level 2 Transition course is mostly practical, with theory to underpin your understanding and prepare you for external assessment, and is delivered through a combination of lessons and practical workshops. You will study a variety of topics and develop key skills in specialist areas such as Data Analysis, Cyber Security and Programming.

The Level 3 Vocational IT course is intended to give all learners a good grounding in a wide range of key topics and skills. The course is developed to provide progression opportunities to Higher Education, Employment or an Apprenticeship in the Digital sector. Additionally the learners who follow this course will develop a range of key productivity skills that will benefit them when progressing into further study or employment outside of a technical Digital discipline.

## Entry Requirements:

Level 1: a minimum of 1 x Grade 3, 1 x Grade 2 and Maths or English Language at Grade 2.
