Future Skills

Future Skills is a taster qualification and an exciting opportunity to study at Runshaw College whilst focussing on the development of student's personal qualities, learning and employability skills.

It is a fantastic introduction to experience a variety of vocational studies, with activities which are interesting and fun that will assist the progression through college, or preparation for work.

As well as studying a wide range of personal development and employability skills, students take part in activities that include off-site visits, residential, and working with local organisations and charities. In our safe and supporting environment, students will learn things about themselves they never knew existed!

As part of the course, students will study English and Maths to improve on their existing skills. This helps students reach their full potential in education and prepares them to work confidently and independently in life.

Upon successful completion of the course, students may progress onto a chosen vocational course, apprenticeship or employment / supported employment.

With high quality information, advice and guidance, Future Skills will build on student's existing knowledge of vocational education, apprenticeships and working in industry, to support making good choices in the future – whatever they may be.

Entry Requirements:

Designed for young people who need an extra year to find their chosen vocation and career path. None or very few qualifications needed.

What's great about this course?

Opportunity to develop skills in a realistic working environment

Enrichment activities including overnight residential, volunteering, working closely with the local community
