Welcome to Runshaw

Runshaw College has spent fifty years growing into a thriving community, where each person is valued and able to flourish.

We are renowned nationally for our outstanding results, friendly and supportive culture and focus on learners' needs, endeavouring to ensure that our students are happy and fulfilled during their time at the College. We value our staff and students highly, and invest heavily in their development, support and well-being, making us one of the UK's leading and award winning colleges.

In our most recent inspection, Ofsted judged our students' **'Behaviour and Attitudes'** and **'Personal Development'** to be **'Outstanding'**

What is an apprenticeship?

An apprenticeship is a job with training that enables an apprentice to gain qualifications and essential skills whilst working. It is a fantastic way for individuals to bridge the gap between fulltime education and the world of employment. Apprenticeship programmes can also be used to upskill or re-train current employees.

An apprentice will work alongside experienced staff in the workplace to gain hands-on experience and the skills needed for their chosen career.

Apprentices will be required to work typically 30 hours per week and will study the relevant theory to complement their practical experience. This will help the apprentice gain the skills, knowledge and behaviours required for their chosen pathway and may potentially enable them to achieve other nationally recognised qualifications such as NVQ Certificates or Diplomas. Apprenticeships will normally last anywhere between 12-36 months with higher level apprenticeships taking longer.

Apprenticeships are currently available at three levels with many offering the opportunity for progression at Runshaw:

Level 2 – Intermediate Level Apprenticeships

Level 3 – Advanced Level Apprenticeships

**Level 4/5 – Higher Apprenticeships
(equivalent to a Foundation Degree)**

If an applicant does not currently hold GCSE A*-D / 9-3 or equivalent, they may also be given the opportunity to study Functional Skills in English and maths alongside their apprenticeship - this will be determined through an initial assessment and diagnostic. Applicants will only be able to undertake an apprenticeship if they are in a suitable job role which includes the necessary competencies for them to demonstrate all aspects of the assessment criteria.

Apprentices

Why choose Runshaw?

As a Runshaw apprentice, you will be well looked after. We are highly regarded for the level of support we offer and apprentices can expect full access to all of our facilities in the same way as full-time students. Out of the workplace, our trainers will work with you as you progress to ensure you are provided with a tailor-made learning programme. This is designed to be fully supportive of your needs, enabling you to progress steadily and ultimately be successful in your apprenticeship.

You will also have regular contact with our industry-led trainers, who will help track and assess your progress in the workplace. A personal learning mentor will be assigned to you, helping you overcome and remove any barrier to success. This is because our aim is simple. We want to ensure that you are happy, fulfilled and given the best start in your future career as possible.

We take great pride in our well established apprenticeship programme here at Runshaw. We will work hard to provide you with the training and support necessary to enable you to become an asset to any business and gain the skills to succeed in the world of employment.

- On the job **training**
- **Qualifications**
- Professional, **industry-led** teams of trainers
- A **debt free** way to achieve
- A **salary**
- Outstanding achievement rate across **all programmes**

Wider Development Workshops

Be 'Apprentice Ready'

- What's in it for me?
- Understanding the agreement you are entering into
- What will I achieve and how will I achieve it?
- Understanding the expectations of the Employer
- Understanding the expectations of the College

Professionalism

Understand the qualities and standards valued by the employer

- Integrity, reliability, having a positive attitude
- Self-motivation, being proactive
- Personal effectiveness
- Ability to organise self
- Time management and scheduling of tasks
- Keeping an outlook calendar

Barriers to Communication

- Gain better understanding of barriers that can affect communication
- How to overcome barriers to communication
- Coaching skills and having difficult conversations

Time Management

- Understand why time management is important
- Tools and techniques
- Managing calendars and using features in MS Outlook
- Communication skills
- Using your ILP

Personal Development

Commitment to self-improvement and continuous learning

- SWOT Analysis, Skills Gap Analysis, Training Needs Analysis
- SMART targets
- SWAN feedback
- Efficacy
- Personal development plan
- Career IAG at Runshaw
- Short term/long term career goals

British Values

To develop knowledge of the Fundamental British Values and the main laws they are linked with

- Equality Act 2010
- Human Rights Act 1998
- To be able to state the 4 Fundamental British Values
- Explain how one of the Fundamental British Values impacts on them

- Correlate the Fundamental British Values to your own organisation policy /procedure

Prevent

- What is the Prevent strategy
- What is meant by extremism?
- What is meant by safeguarding?
- The challenges in Lancashire?
- Where does the threat come from?
- Why we cannot be complacent
- Why and how would you refer?
- What happens after a referral?

STAR Method & Professional Discussions

- To understand competence-based interview questions
- To develop skills in answering competency-based questions
- To learn about STAR technique
- Preparation for the Professional discussion

Presentations

- Developing a PowerPoint
- Presentation Skills

Apprentices

Expectations...

ERR

- Employee rights and responsibilities
- Statutory rights and responsibilities
- Contract of employment
- Working hours and holiday entitlement
- Sickness absence and sick pay
- Anti-discrimination
- Data protection
- Health and safety
- Procedures and documentation
- Grievance and disciplinary
- Career pathways
- Representative bodies

Life Skills

- Healthy living & diet
- Exercise & sleep
- Wellbeing
- Vaping & smoking
- Alcohol & drugs
- Finance and money management

- to complete all work to a **high standard**
- to meet all agreed **deadlines**
- to maintain **high levels of attendance** at work (and in college as applicable)
- to demonstrate **commitment** to their apprenticeship programme
- to be **prepared** for all visits and reviews
- to **act as an ambassador** for their employer and the college
- to **maintain frequent contact** with their trainers
- ensure that **OTJ training** is **thoroughly recorded** with reflections on learning noted

Apprentices

What are the benefits of doing an apprenticeship?

There are lots of great reasons to become an apprentice, here are just a few of them!

Skills, knowledge & behaviours

An apprenticeship is all about developing new skills, knowledge, and behaviours within your chosen sector. Whether you stay with your employer on completion, study at a higher level or train in a new area, many of these new skills will be transferable and set you up for life!

Real job benefits

As an apprentice, you will have a contract of employment with the employer which could typically include all regular employee benefits such as holiday allowance, bank holidays, pensions and continuous professional development (CPD).

Earn as you learn

As an apprentice, you will 'earn as you learn'. Although salaries will vary by employer, if you are under the age of 19 or in the first 12 months of your apprenticeship, you are entitled to at least the National Apprenticeship Minimum Wage. You will also be paid during any 'off-the-job-training'. Some employers may pay more than National Apprenticeship Minimum Wage.

For information on National Minimum wages please visit: <https://www.gov.uk/national-minimum-wage-rates>

Fee free qualifications

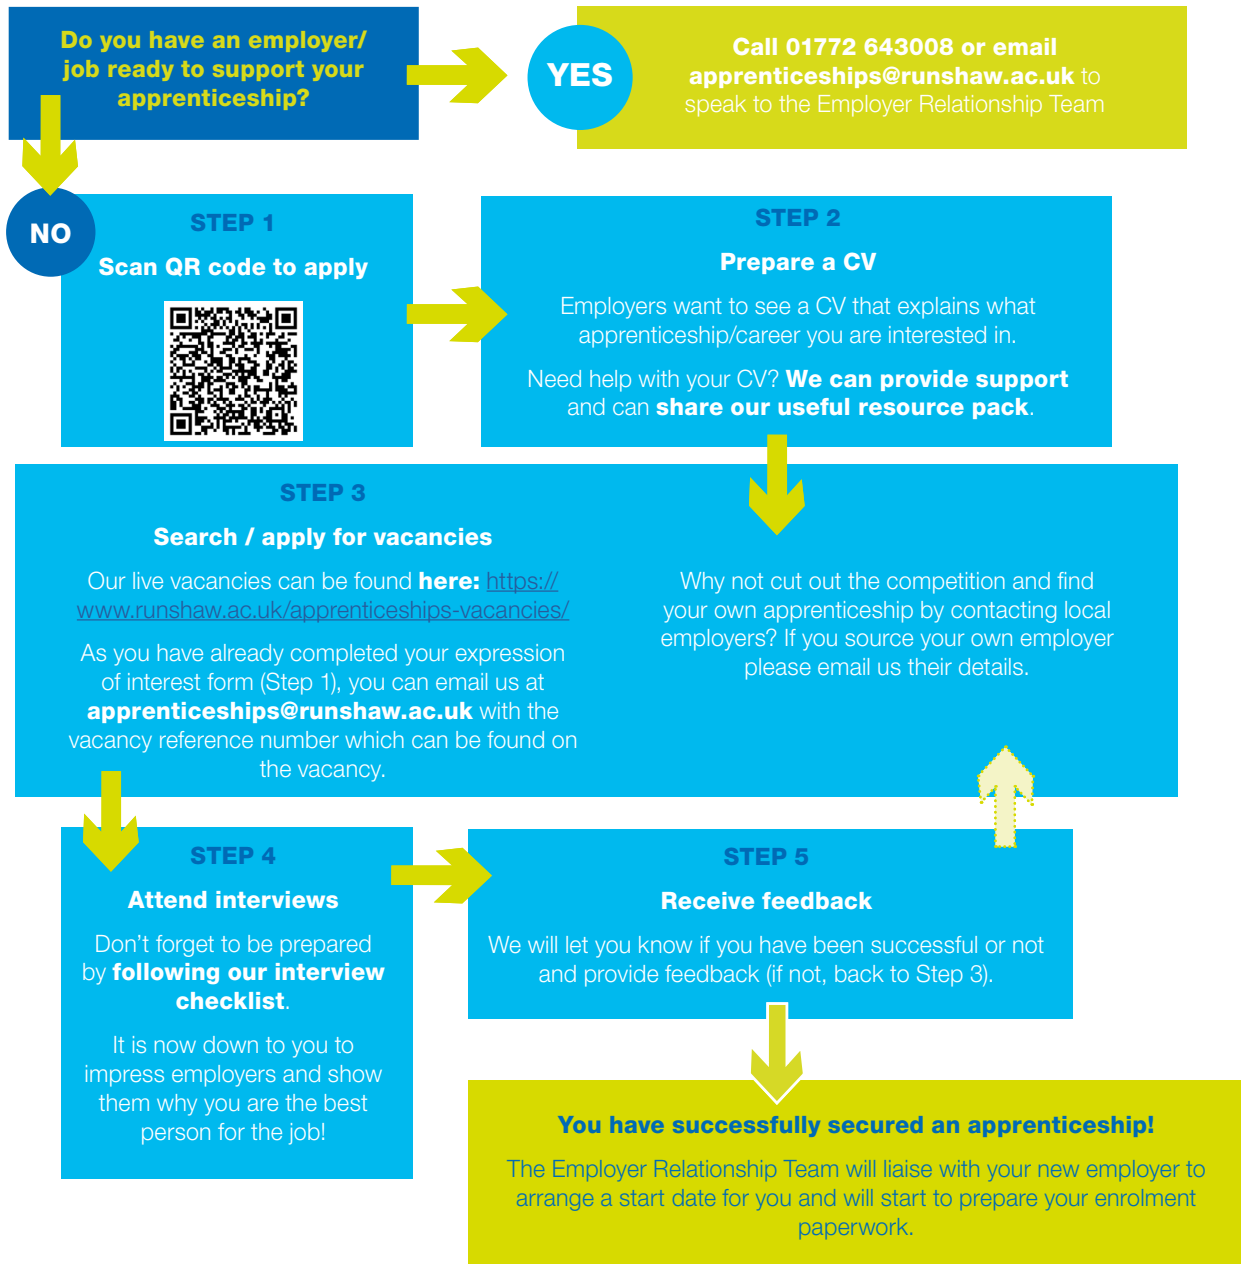

Apprenticeships are becoming a popular alternative to university for students wishing to begin a career whilst continuing their education. Unlike a university course, you will not have to pay for your qualifications during your training as the costs are covered by either the Government or your employer.

Employability & career prospects

Your Apprenticeship will give you nationally recognised qualifications and key skills which will be hugely beneficial to career progression and future employability prospects.

How to become an apprentice

CV preparation

In the current job market it is vital to get your CV noticed and read. It is essential to identify your skills and your potential worth to a prospective employer.

The information below is designed to assist you in collecting your information, presenting your information, **what to do** and **what not to do**.

TIPS

Do:

- Keep it relevant and current
- Word process your CV
- Ensure there are no spelling mistakes
- Ensure it is clear and concise
- Be honest!
- Put your most recent job history first
- Get someone to check it before you submit it!

Do not:

- Make it longer than 2 pages of A4
- Exaggerate your skills and achievements
- Forget to accompany your CV with a letter of application (if sending direct to the employer)
- Use too many different font styles

Include the following information

- Full name, address, postcode and telephone number (include dialling code)
- Personal statement – include your skills, abilities and career goals
- Education – include school / college, subjects and grades achieved
- Employment history – most recent employment first, include dates (month and year) job title and duties. Also include any work experience and voluntary work.
- Additional information – driving licence, Duke of Edinburgh Award, sports achievements, and positions of authority such as being a student council member, school prefect, or form representative
- Interests – be genuine, don't just list interests, expand into a sentence e.g. "I enjoy swimming and have achieved my gold personal survival award".

Should you need help completing your CV, please let us know. We can share our useful resource pack with you and direct you to online sources too!

Employers

Why choose Runshaw?

Our dedicated apprenticeship Team at Runshaw will work hard to help you source the best apprentice for your business by understanding your business needs and sourcing enthusiastic and motivated candidates. We take great pride in our apprenticeship programmes and will provide the training and support necessary to enable your apprentice to become an asset to your company.

By choosing to work with us, we can help add value to your business and provide you with:

- A dedicated, professional team of staff and industry-led Trainers
- A wealth of experience providing the successful delivery of a wide range of apprenticeships, validated by our proven track record
- Excellent levels of advice, support and guidance for both you and your apprentice
- A free vacancy matching service to source motivated and enthusiastic candidates wishing to both gain qualifications and employment
- Continued support and updates of any important changes to the National Apprenticeship Programme
- Proactive efforts to ensure that the best and most up to date apprenticeships are available for your business

Employers

What are the benefits of hiring an apprentice?

Hiring an apprentice is a productive and effective way to grow talent and develop a motivated, skilled, and qualified workforce.

86% of employers said apprenticeships helped them develop skills relevant to their organisation

78% of employers said apprenticeships helped them improve productivity

74% of employers said apprenticeships helped them improve the quality of their product or service

Other benefits of working with apprentices include:

- you can adapt their training according to the needs of your business
- they're motivated to learn new skills
- you can expand and upskill your workforce

How do I enrol an **apprentice**?

To enrol an apprentice in partnership with Runshaw College as your designated training provider, please call our **Employer Relationship Team** now on **01772 643008** or email **apprenticeships@runshaw.ac.uk**. This is your first step towards hiring an apprentice, the following information will provide you with a step-by-step guide. If you are looking to **up-skill an existing staff member** through an apprenticeship, the same process will apply, except for the need to carry out interviews. A great way to develop your workforce!

Enrolling an apprentice

1. Initial contact with our Employer Relationships Team who will guide you through the process.
2. Completion and return of the 'Vacancy Pro-forma' – Recruit an apprentice. This will enable us to learn exactly what you're looking for and ensure we match the right candidates to the right apprenticeship.
3. Register for an account on the Digital Apprenticeship Service.
4. Signing of The Service Level Agreement.
5. A Health & Safety appraisal (issued by Runshaw) must be completed by the employer before any apprentice starts.
6. We will offer you potential apprentices, screened and selected, for your vacancy and consideration (at this stage, you may wish to begin interviewing candidates with a view to making a job offer).
7. Once you have interviewed and selected a suitable candidate and your offer is accepted, we will arrange a sign up meeting to complete additional documents and enrol the learner onto the apprenticeship programme.
8. Apprentice enrolled and on their exciting apprenticeship journey with you!
9. Once the enrolment is complete a Runshaw Trainer will arrange the first visit with you and your new apprentice.

How are apprenticeships funded?

I. Apprenticeship Levy Information

The Apprenticeship Levy, introduced in May 2017, has now replaced all taxpayer funding of apprenticeships for both public and private sector companies of all sizes and is designed to help employers fund apprenticeships and boost overall productivity. The information below should therefore provide both levy and non-levy payers with a basic overview of the levy and its effect on employers.

All employers

- To help support and incentivise apprenticeships, the government will also make a payment of £1000 should you hire an apprentice aged between 16-18 or an apprentice aged 19-24 who has previously been in care.

Levy Paying employers

- If you are a business with an annual payroll exceeding £3 million, then you will be required to pay the levy.
- The amount payable will be 0.5% of your total payroll and is taken through your monthly PAYE payments.
- You will be required to pay 100% of the training costs for an apprentice, regardless of age.

- The government will provide you with a 10% top-up to your monthly funds entering your Digital Apprenticeship Service Account (DAS). These funds can then be spent on apprenticeship training through an approved provider such as Runshaw.
- You will have 24 months from the moment your levy funds enter your DAS account to spend it on apprenticeship training before they will expire. Although this process is automatic, you will be reminded and given plenty of notice to spend these funds before expiration.

Non-Levy Paying employers

- If you are a business with an annual payroll less than £3 million, then you will not be required to pay the levy.
- If you employ an Apprentice aged 16-21, the apprenticeship training will be 100% government funded. For apprentices 22 and over you will pay 5% contribution to the overall cost of the apprenticeship programme. Should your business have 50 employees or more, over a 365 day period and you hire an apprentice aged 19-24 who has previously been in care, the government will provide 100% of their funding. For all age groups you are required to pay the apprentice a salary.

Your questions answered

What are my responsibilities as an employer?

Below are some of the responsibilities that you will be expected to fulfil with regards to hiring an apprentice.

These responsibilities may include, but are not limited to:

- Paying your apprentice an agreed upon wage (must at least meet the National Apprenticeship Minimum Wage)
- Providing employment and the necessary training for the duration of the apprenticeship
- Allowing off-the-job training*
- Releasing the learner to attend training sessions if required
- Providing a safe workplace
- Showing commitment to equal opportunities
- Providing a written contract of employment and induction programme
- Providing a suitable member of staff to undertake the role of a mentor, tutor or witness to the learners competence
- Attending learner 8 weekly progress reviews
- Releasing the learner to attend the functional skills hub if required
- Allowing the learner to attend 4 weekly visits with their Trainer
- Appointing a safeguarding lead

Should you need further explanation of any of the above points, please call our Employer Relationship Team on **01772 643008** or email **apprenticeships@runshaw.ac.uk**

*vital for the apprentice to be certificated at the end of their programme

Key
information

Entry requirements

What are the requirements?

Anyone living in England*, aged over 16 and not in full-time education can apply to become an apprentice, whether you are just leaving school, have been working for years or simply looking to start a new career. If you are already employed, you can also apply to become an apprentice as part of your Continuous Professional Development with your existing employer.

Formal qualifications are not always essential to becoming an apprentice, entry requirements do vary between courses and the level of study. Most employers however, often require applicants to hold GCSE A*-D/9-3 or equivalent in maths and English. As part of the application process, you will also need to provide us with a completed CV and be willing to attend an interview which will often be requested by employers.

All applicants will undertake an initial assessment for maths and English. If you do not hold formal qualification a full maths and/or English diagnostic assessments will be carried out under exam conditions to determine your suitability.

You may also be required to follow a set dress code or uniform whilst in the workplace and show a willingness to work either as an individual or as part of a team. Most importantly of all however, you must show a commitment to your apprenticeship throughout.

*Subject to meeting eligibility requirement set by the ESFA

Off the job training

An apprentice needs to undertake **'off the job training'** as a mandatory requirement of an apprenticeship, as set out in the apprenticeship funding rules.

What is 'off the job training'?

Off-the-job training is defined as learning which is undertaken outside of the normal day to day working environment and leads towards the achievement of the apprenticeship. This can include training that is delivered at the apprentice's normal place of work but must not be delivered as their normal working duties.

The minimum duration an apprenticeship is 30 hours per week or more including any off the job training. If the apprentice works less than 30 hours you must extend the minimum duration proportionally to take this into account (taken from apprenticeship funding rules).

What 'off the job training' could include?	What does not constitute 'off the job training'?
It MUST be directly relevant to the apprenticeship standard	Enrolment/Induction
Teaching or theory lectures	Diagnostic assessment or prior assessment
Simulated exercises/Role play	English and maths (up to level 2) – this is funded separately
Online learning e.g webinars/blended learning (online and physical)	Progress reviews or on programme assessment needed for the apprenticeship standard
Manufacturer training e.g new equipment or technologies	Off the job training ONLY delivered by distance learning
Practical training	Training that takes place outside paid working hours
Work shadowing/receiving mentoring	1 -1 meetings with mentor/line manager
Industry visits/visiting other companies/suppliers/ departments	
Attendance at competitions	
Time spent by the apprentice writing assessments/ assignments	

Health and Safety

All employers should take all the necessary steps to ensure the health, safety and welfare of all persons participating in training is of the same standard as the company is required to do in relation to its employees under current Health and Safety legislation. Basic health and safety documentation and safety arrangements should be in place and monitored. These include employers liability insurance, accident book, first aid facilities, fire precautions and where appropriate risk assessment and safety policies.

Our responsibility

- Using competent staff to verify that you can provide a healthy, safe and supportive learning environment by conducting a health and safety appraisal.
- Provide a safe and healthy working environment for apprentices at all times during off-the-job training.
- Provide health and safety training for apprentices to raise their awareness of hazards in the workplace.
- Check apprentices' understanding of health and safety risk awareness.
- Investigate any accidents involving apprentices within the workplace and agree preventative action.

Employer responsibility

- Ensure the health, safety and welfare of apprentices and bring your policy statement to their attention.
- Comply with health and safety legislation.
- Provide initial and ongoing health and safety training in the workplace for apprentices.
- Assess the risks to which apprentices are exposed at work and apply the general principles of prevention.
- Report any accidents involving the apprentice immediately to the Trainer and allow investigation of the circumstances.

Apprentice responsibility

- Follow all safety procedures, policies and systems to maintain a positive safety culture.
- Ensure all accidents, incidents and near misses are reported to your line manager.
- Act in a safe and reasonable manner at all times.
- Follow the correct safety procedure in each task performed to ensure safe practices are adhered to.
- If unsure of any safety procedure, seek advice from supervisor / manager.

Responsibilities relating to your apprenticeship journey

Our responsibility

- Provide help and advice on planning workplace training and learning activities for the apprentice.
- Be aware of the learning activities that are already taking place within the workplace.
- Provide appropriate off-the-job training sessions to support the skills that the apprentice is developing in the workplace, in order that they can achieve their qualification and Apprenticeship Standard.
- Keep both apprentice and Line Manager fully engaged in regular 8 weekly progress reviews of apprentice progress against all aspects of the Apprenticeship.

Employer responsibility

- To help apprentices develop their knowledge, skills and behaviours by providing a wide range of learning and training opportunities within the workplace.
- Allow apprentices to attend off-the-job training sessions at the agreed times.
- Help apprentices to put into practice what they have learnt during off-the-job training sessions.

- Give apprentices time in the workplace to complete required college work.
- Initiate a meeting with us if you have any concerns about any aspect of the training delivery.

Apprentice responsibility

- Attend all on and off-the-job training and appointments made with the Trainer or provide adequate notice should an appointment need to be cancelled.
- Co-operate with the Trainer in meeting targets set out in the Individual Learning Plan.
- Promptly notify the Trainer should any problems occur which may hinder progress toward completion of the Individual Learning Plan.

Delivering the apprenticeship

Planning Meeting

- Individual Learning Plan

Once enrolled, the apprentice will be assigned a Trainer, who will be in contact to arrange a planning meeting with the employer and apprentice. During this first meeting the employer and apprentice will set out and agree upon an individual learning plan. This will take into consideration the apprentices starting points against the skills, knowledge, and behaviours for the apprenticeship standard as well as any prior learning that may exist from their previous job role, including any functional skills requirements that they may have. This will be an opportunity for the employer to tailor the apprenticeship and to discuss training needs within the organisation.

Having planned the training programme, the employer will work together with Runshaw College to deliver the training required to develop the apprentices' skills and help them achieve to their full potential.

The majority of our apprenticeships are delivered fully within the workplace itself. Throughout the apprenticeship the employer must give the apprentice time to carry out 'Off the Job Training' which involves

them spending time on their portfolio, attending external events, role related training, shadowing staff within the workplace and much more.

Induction

Within the first 6 weeks, the apprentice will complete an Induction on our Moodle site: this will cover topics such as:

- Prevent
- British Values
- Online Safety
- Health and Safety
- Equality and Diversity
- Apprenticeship Programme support

4 Weekly Visits

The Trainer will then arrange to visit the apprentice in the workplace every 4 weeks to support them throughout the apprenticeship journey, set assignments for any embedded qualification, set SMART targets for them to improve their skills, knowledge and behaviours and supporting them in logging quality 'Off the Job Training' logs. They will also start preparing for End Point Assessment very early

within the apprenticeship. Please note these visits can be remote via MS Teams, Zoom or 9 telephone calls and on some occasions the visit can be booked in a classroom at the College if a face-to-face meeting is needed and this cannot take place at the employer's premises.

8 Weekly Progress Reviews

The Trainer will arrange a meeting with the employer and apprentice every 8 weeks to complete a progress review. This is a valuable opportunity for all parties to measure progress made against the skills, knowledge, and behaviours and this is captured on record by the completion of a skills scan on the apprentices' student portal. This three-way partnership ensures that the apprentice receives the best possible training experience, as well as ensuring the right training opportunities are provided within the workplace to allow them to further develop. At a progress review there will be an opportunity to check the following: -

- Apprentices distance travelled against their starting points on the apprenticeship standard
- Apprentices functional skills development within the workplace

and against any required exam/s (maths & English)

- Apprentices professional learning/professional development (Off-the-job Training)
- Apprentices progress withing their job role
- Apprentices progress towards End Point Assessment

Preparation

During this meeting SMART targets will be set, and full feedback provided. We find that by having Employers/Line Managers fully engaged in every aspect of an apprenticeship journey, that the apprentice gains an enhanced experience of skills development.

Gateway

Once the apprentice has reached the minimum duration of the programme, completed a portfolio, Off the Job Training record and achieved functional Skills Maths and English if applicable, they have reached gateway. At this point the employer will start to prepare for End Point Assessment – then we will consider if the apprentice is ready

to pass through the ‘gateway’ to sit the End Point Assessment (EPA). This is discussed fully and agreed at a progress review meeting with the employer, the trainer & apprentice.

End Point Assessment

All Apprenticeships now include an End Point Assessment (EPA). These are designed to test the knowledge, skills and behaviours that an apprentice has gained during their training. Each Apprenticeship programme has its own unique EPA which demonstrates the competence of an apprentice in their role. EPA methods include knowledge tests, real work projects, a professional interview with the awarding body and live practical demonstrations. What the End Point Assessment (EPA) will consist of will depend on what apprenticeship standard the apprentice is enrolled on. The Trainer will fully support the apprentice in preparing for End Point Assessment. This usually takes approx. 3 months to fully complete. These are graded assessments carried out by an external awarding body, the apprentice could achieve a pass, merit or distinction. Full details of all Apprenticeship Standards and Assessment Plans can be found on

this Government Website: <https://www.instituteforapprenticeships.org/apprenticeship-standards/>

Off the Job Training

Under the apprenticeship rules, each apprentice needs to undertake ‘off the job training’ as part of their programme. As part of their training, apprentices need to log a stipulated number hours in off the job activities, which will be carried out as part of their weekly working hours, this time can be used gaining new knowledge and skills by the following methods: The teaching of theory (for example: lectures, role playing, simulation exercises, online learning or manufacturer training) Practical training: shadowing, mentoring, industry visits and participation in competitions Learning support and time spent writing assessments/ assignments.

Further Guidance can be found on the government website - <https://www.gov.uk/government/publications/apprenticeships-off-the-job-training>

Our
Apprenticeship
Programmes

Our courses

Runshaw College offer a range of apprenticeships from Level 2 to Level 5. The level you will study will depend on previous experience, current qualifications and the job role you are employed to do.

Accounts/Finance with AAT Level 2

An Accounts/Finance Assistant is an integral part of the team responsible for maintaining an efficient and accurate finance department within a business. The Accounts/Finance Assistant is responsible for assisting the team of accountants with junior book keeping and accounting duties. An Accounts/Finance Assistant's work could include basic bookkeeping activities working with digital software such as Xero or Quickbooks, working with sales and purchase ledgers, running calculations to ensure that records and payments are correct, recording of cash and data entry. Accounts/Finance Assistants can work in almost any sector.

Within the offer from Runshaw College you will gain additional professional qualifications within this Apprenticeship which are: Association of Accounting Technicians Level 2 (AAT) qualification.

Entry Requirements:

GCSE English and Maths or equivalent A*-C / 9-4.

If you do not hold the necessary grades, you may have the opportunity to complete a functional skills course alongside your apprenticeship. Suitability will be determined following an initial assessment and diagnostic.

Career Development:

Once qualified you could be hired as a Level 3 Assistant Accountant Apprentice, Accounts Clerk, Cashier, Finance Assistant, Credit Control Clerk, Sales Ledger Clerk.

Main learning objectives

Understanding your organisation

Accounting systems & processes

Basic accounting

Business awareness

Duration:
12 months plus
1 week, + 3
months End Point
Assessment (EPA)

EPA
structured
interview with
awarding body &
exams

Assistant Accountant AAT Level 3

An Apprenticeship in accounting will enable you to actively participate in the running of a business by learning and assisting with its financial activities, such as invoicing, sales ledgers, taxes and payroll as well as processing these transactions on the digital software used by the organisation you work for. You will initially begin as an assistant accountant and help a business plan and manage their money, so you must be methodical, efficient, and discreet at all times. You are likely to be office based and working in a finance department as part of a larger organisation, or in a small accountancy firm. This will give you exposure to a number of other businesses and offers good opportunities for both career and study progression. You will also be awarded with a Level 3 AAT Certificate in Accounting.

Within the offer from Runshaw College you will gain additional professional qualifications within this Apprenticeship which are: Association of Accounting Technicians Level 3 (AAT) qualification.

Entry Requirements:

GCSE English and Maths or equivalent A*-C / 9-4.

AND

A pass at Level 2 AAT certificate in Accounting or a Level 2 accounting qualification from another awarding body or A Level Accounting at A*-C.

If you do not hold the necessary grades, you may have the opportunity to complete a functional skills course alongside your apprenticeship. Suitability will be determined following an initial assessment and diagnostic.

Career Development:

Once qualified you could be hired as a Professional Accounting Taxation Technician Level 4 Apprentice, Accounts Clerk, Cashier, Finance Assistant, Credit Control Clerk, Sales Ledger Clerk.

Main learning objectives

- ▶ Analysis and evaluation of data
- ▶ Produces quality and accurate information
- ▶ Problem solving and decision making
- ▶ Business awareness
- ▶ Digital IT systems and processes
- ▶ Financial accounting and reporting

Duration:
15 months, + 3 months End Point Assessment (EPA)

EPA includes a synoptic end test, a portfolio and a professional discussion

Professional Accounting Taxation Technician AAT Level 4

Individuals in the role of Professional Accounting will have responsibility for creating, and / or verifying and reviewing, accurate and timely financial information within the organisation in which they are employed or on behalf of another organisation. This will be performed in order to meet relevant ethical, professional and legal standards, and will utilise the individual's knowledge of the business systems and processes, as well as standard digital accounting systems and processes. This role may exist in an accounting practice, a professional services company, HMRC or the accounting function of a business or other organisation.

A Professional Tax Technician will be required to have knowledge and understanding of the core elements of personal taxation and accounting principles. They will be required to prepare tax calculations using the digital software within the business, prepare government forms, understand and comply with filing deadlines, and document client paperwork. Depending on their role they will also have specialist knowledge in other areas of taxation, for example Business Compliance, VAT, Inheritance Tax, Trusts and Estates and Corporate.

Within the offer from Runshaw College you will gain an additional professional qualification within this Apprenticeship which is: Association of Accounting Technicians (AAT) qualification.

Entry Requirements:

GCSE English and Maths or equivalent A*-C / 9-4 & an AAT Level 3 or equivalent level accounting qualification.

If you do not hold the necessary grades, you may have the opportunity to complete a functional

skills course alongside your apprenticeship. Suitability will be determined following an initial assessment and diagnostic.

Career Development:

Once qualified you could be employed as an Assistant Auditor, Assistant Management Accountant, Expenses Supervisor, Senior Financial Officer Credit Control Clerk, Tax Investigations Officer, Personal Tax Assistant and Business Tax Assistant.

Further progression could lead to higher level professional accounting exams such as CIMA or ACCA.

Duration:
18 months, + 3 months End Point Assessment (EPA)

EPA
includes a portfolio, reflective statement and a role simulation

Main learning objectives

- ▶ Management account budgeting
- ▶ Management account decision and control
- ▶ Financial statements
- ▶ Professional level synoptic
- ▶ Credit management
- ▶ Cash and treasury management
- ▶ External auditing
- ▶ Personal tax

Business Administration Level 3

A Business Administration Apprenticeship will give you the knowledge, experience and essential skills required to enable the smooth day-to-day running of a business or organisation. You will learn and be responsible for a variety of administrative tasks, such as record and document production, emails and answering phone calls. These duties will require you to work as both an individual or as part of a team. You will engage with different parts of your chosen organisation along with internal and external customers which will help you develop a wide range of valuable skills such as IT proficiency, communication, initiative and problem solving.

Additionally, this Apprenticeship will provide you with a wealth of experience and a range of transferable skills and behaviours which may present you with the opportunity to work almost anywhere and in a variety of sectors. With the knowledge, skills and behaviours you will learn during this Apprenticeship, it is an excellent and logical starting point for those seeking to move into management and offers good career and study progression.

1 week, + 4
months End Point
Assessment (EPA)

EPA

includes an
'Apprentice
Showcase' to provide
examples of work, a
practical observation
and a professional
discussion

Customer Service Specialist Level 3

Overview, the main purpose of a Customer Service Specialist is to be a 'professional' for direct customer support within all sectors and organisation types. You are an advocate of customer service who acts as a referral point for dealing with more complex or technical customer requests, complaints, and queries. You are often a first point of call for complicated or ongoing customer problems.

As an expert in your organisation's products and/or services, you share knowledge with your wider team and colleagues. You gather and analyse data and customer information that influences change and improvements in service. Utilising both organisational and IT systems to carry out your role. This could be in many types of environment including contact centres, retail, web chat, service industry or any customer service point. We introduce all our learners to insight of customer service. We also have bespoke in house training tailored made to employer needs.

Optional units - depending on job role:

1. Team leading
2. Retail operations
3. Planning and implementation of a sales campaign(s)
4. Marketing management
5. Use of social media in own organisation
